DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-10 and 12-13 rejected under 35 U.S.C. 102(b) as being anticipated by Wieczorek et al (#5,524,958).

Wieczorek et al show a holding device (70) comprising a carriage (16) guidable as a drawer to be displaceable back and forth, a guide means for guiding the carriage during its displacement between the positions, a gravity lock device, and a holder having an insertion opening. The holder can be raised on the carriage when it is pulled out.

With claims 6-10 and 12, the guide means is formed so that a path of raising the holder is oriented upwardly in relation to the carriage.

Response to Amendment

The examiner has reviewed and acknowledged the applicant's Amendment, filed on September 27, 2004. Another prior art search was done with regards to the claim amendments. The examiner has decided to issue a new prior art rejection. Accordingly, this Office action is considered to be Non-final.

Conclusion
